Age spots Stretch marks

Rough uneven skin

Brown spots

Blackheads Dry skin

Red spots Freckles

Dull skin Fine lines

Enlarged pores scars

Discolorations

Micro Peel Cloth
8" x 8"

When Will I See Results?

Do this regime every 7 to 10 days. Results will be experienced and seen after 3 or 4 treatments, but your face might be slightly pink temporarily after the first treatment. This is normal and bolsters the production of collagen and elastin - **making your skin firmer and smoother**. Some people may experience slight flaking or peeling of the skin in the several days following treatment. This is normal and means the treatment is working! Flaking and peeling should minimize or stop completely in subsequent treatments. Since all individuals are different, results will vary.

When should I not use the cloth?

You should never disregard medical advice or delay in seeking it because of something you have read here. If you suffer from any systemic disease or dermatological disorder that affects your skin please advise your doctor before use. You should also avoid using the cloth if you are sunburned; have active herpes simplex, open cuts or sores, are currently on a medication (included but not limited to Accutane) or have recently had facial surgery.

Can I use it for other parts of my body other besides my face?

Our Micro Peel Facial Cloth can be used on your whole body, including back and chest acne, dry, sun damaged skin on arms, legs, etc. (do not use on sensitive areas such as genital and eye areas) with the same rejuvenating and skin clarifying effects.

Micro Peel Facial Cloth

Our facial cloths are made from super soft fibers that have been created exclusively for skin and body washings. No soap, lotions, or other ingredients are required.

Warm water will clean the skin right down to the pores. To remove make-up, you may use a mild cleanser (although it may not be necessary)

Please use gently to avoid extreme abrasion of skin layers.

Do Not Rub Extensively

This product is especially suited to those people who are allergic or have sensitive skin.

This face cloth is phenomenal for people who suffer from acne. Used on a daily basis, this micro peel face cloth pulls from the depth of the pores, to remove impurities and bacteria within the skin.

The information contained in our brochure is for educational purposes only and not to be used as medical advice or as a recommendation for treatment of disease. For diagnosis and treatment, consult your physician.

WE OFFER A 30 DAY 100% MONEY BACK GUARANTEE

Which means you have nothing to lose...

8" Squared Cloth

Colors:

Green, Yellow, Blue, Orange, Pink and Lavender

Our cloths offer more than just quality...This cloth is so incredibly durable it can be rinsed and re-used over and over again. Surviving and thriving through a minimum of 100 washes. These cloths are the result of cutting edge fiber research.

Woven with an outstanding blend, this modern miracle contains over 200,000 strands of highly refined fiber per square inch.

So easy to care for!

Simply wash with your favorite soap or detergent and rinse well. Fabric softeners can damage the static charge in the fibers, so be sure to wash without fabric softeners. Do not use an iron.

We recommend they be washed separately from your other laundry since the positive charge of the fibers will attract any lint or foreign materials from the laundry. Simply allow them to air dry. They are so light they dry in 1/3 the time of conventional cloth.

Machine wash & let air dry. Do not use chlorine bleach, fabric softener or dryer sheets.

This Micro Peel Facial Cloth uses a very soft fiber, made from 80% Polyester and 20% Polyamide.

The structure and soft feel of this cloth is a velvety cloth material and can be used wet or dry to exfoliate and increase blood circulation for your skin which facilitates collagen growth.
